

Safety Data Sheet

X-Press It Stencil Sheet

Section 1 - Identification of the material and supplier

Product Name Stencil Sheet
Manufacturers Code XPSSA44, XPSSA32, XPSS8.5X114, XPSS11X172
Product Description **Stencil Sheet** is a low tack film used for making stencils for airbrushing, painting and other creative techniques. **Stencil Sheet** can be used with abrasives for etching and sandblasting applications. **Stencil Sheets** will release without leaving adhesive residue. Stencil Sheets may be cut with a blade by hand or die cut.
Recommended Uses Removable **Stencil Sheet** for art, craft or school application.

For Further Information

Company X-Press Graph-X Pty Ltd
ABN 67 630 199 576
Phone +613 9585 4455
Fax +61 3 9585 4453
Address 40 Taunton Drive, Cheltenham VIC 3192 Australia

Section 2 - Hazards identification

Safe Work Australia Criteria Classification While this material is considered Non - hazardous by OSHA Hazardous Communication Standard (29) CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification of the substance or mixture Not Classified

GHS Label Elements -

Signal Word No signal word

Hazard Statement No known significant effects or critical hazards.

Precautionary Statements – general Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.

Precautionary Statements – prevention Not applicable

Precautionary Statements – response Not applicable

Precautionary Statements – storage Not applicable

Precautionary Statements – disposal Not applicable

Other Hazards not otherwise classified No hazards identified

Section 3 - Composition/information on ingredients

Substance Substance

Mixture

Chemical Name	CAS No.	Weight-%
Non-Hazardous Ingredients	-	To 100%

Composition: PVC film, Vinyl Acrylate Adhesive, Silicone Release Paper

Section 4 - First Aid Measures

Description of first aid measures

General Advice Show this safety data sheet to the doctor in attendance. IF exposed or concerned: Get medical advice /attention

E Telephone number Poisons Information's Centre Australia 131126

Inhalation Single exposure to film is not likely to be hazardous. Get medical attention if symptoms occur.

Skin Contact Treat by routine hygienic practices, such as washing with soap & water. Get medical attention if symptoms occur.

Eye Contact Solid or particles may cause irritation or eye injury due to mechanical action. Treat as with other inert solids. Get medical attention if irritation occurs.

Ingestion No adverse effects anticipated by this route of exposure. Get medical attention if symptoms occur.

Safety Data Sheet

X-Press It Stencil Sheet

Most Important Symptoms and effects, both acute and delayed

Potential acute health effects

Eye Contact No known significant effects or critical hazards
Inhalation No known significant effects or critical hazards
Skin Contact No known significant effects or critical hazards
Ingestion No known significant effects or critical hazards

Over-Exposed signs/symptoms

Eye Contact No known significant effects or critical hazards
Inhalation No known significant effects or critical hazards
Skin Contact No known significant effects or critical hazards
Ingestion No known significant effects or critical hazards

Indication of any immediate medical attention and special treatment needed

Note to doctors Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been inhaled or ingested.

Specific Treatments No Specific Treatment

Protection 1st aiders No action shall be taken involving any personal risk or without suitable training.

Section 5 - Fire fighting measures

Suitable extinguishing media Use extinguishing appropriate to the surrounding fire.

Unsuitable Extinguishing Media None Known

Hazards that develop from the chemical during the fire No specific fire or explosion hazard

Recommendations on special actions for firefighters No special measures required

Recommendations on special protective equipment for firefighters Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6 - Accidental release measures

Personal precautions protective equipment and emergency procedures

For Non-emergency personnel None

For emergency responders

None

Environmental precautions In solid form there is little risk of accidental release.

Methods and material for containment and cleaning up

Small Spill Not applicable

Large Spill Not applicable

Section 7 - Handling and storage

No smoking, open flames or sources of ignition in handling and storage area. Good housekeeping and controlling of dusts are necessary for safe handling of product. Electrically bond and ground all containers, personnel and equipment before transfer or use of material. Keep away from heat, sparks and flame.
See Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION.

Advice on Safe Handling Handle in accordance with good industrial hygiene and safety. Ensure adequate ventilation in case on insufficient ventilation. Do not eat, drink or smoke.

General Hygiene Considerations When using do not eat, drink or smoke. Regular cleaning of equipment, work area and clothing is recommended. Keep away from food, drink and animal feeds stuffs. Do not eat or smoke when using this product. Wash hands before breaks and immediately after handling the product. Wash hands before breaks and after work.

Safety Data Sheet

X-Press It Stencil Sheet

Conditions for safe storage, including and incompatibilities

Storage Conditions Keep in a dry, cool and well-ventilated place and away from heat sources. Keep out of reach of children. Keep from freezing. Store in accordance with good manufacturing practices. See Section 10 for more specific information

Incompatible Materials None known based on information supplied.

Section 8 - Exposure controls/personal protection

Control parameters/Occupational exposure limits None

Appropriate engineering controls Good general ventilation should be sufficient to control worker exposure to airborne contaminants. Ensure adequate ventilation, especially in confined areas.

Environmental exposure controls Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Individual protection measures Hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection Tight fitting Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to particles or solid objects. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection Hand protection Chemical, impervious gloves complying with an approved standard should be worn at if a risk assessment indicates this is necessary.

Body protection Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection No respirator required in normal use. Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must in accordance with AS/NZS 1715 and AS/NZS 1716

Environmental Exposure Controls No information available

Section 9 - Physical and chemical properties

<u>Property</u>	<u>Value</u>
Physical State	Solid
Colour	Grey
Odour	Slight acrylic odor
Odour Threshold	NA
pH (in water)	NA
Boiling point	NA
Melting Point	NA
Flash point	NA
Evaporation rate	NA
Flammability (solid, gas)	Non-Flammable
Lower and upper explosive	NA
Flammability Limit in Air	
Upper flammability limit	NA
Lower flammability limit	NA
Vapour pressure	NA

Safety Data Sheet

X-Press It Stencil Sheet

Vapour density	NA
Relative density	NA
Water solubility	NA
Solubility (ies)	NA
Partition coefficient	NA
n-octanol/water	NA
Auto-ignition temperature	NA
Decomposition temperature	NA
Kinematic Viscosity	NA
Dynamic Viscosity	NA
Explosive Properties	NA
Oxidising Properties	NA
Viscosity	NA
Volatility	NA
Solids	100%

OTHER INFORMATION

VOC Content (%) No information available

Density No information available

* This information may be derived from the companies in the preparation.

Section 10 - Stability and reactivity

Reactivity No specific test data related to reactivity available for this product or its ingredients. The product is stable.

Chemical stability Under normal conditions of storage and use, hazardous reactions will not occur.

Explosion Data

Sensitivity to mechanical impact. None.

Sensitivity to Static Discharge. None

Possibility of hazardous reactions Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid No specific data.

Incompatible materials No information available

Hazardous decomposition products Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11 - Toxicological information

Information on toxicology effects

Acute Toxicity There is no data available

Irritation/Corrosion There is no data available

Sensitization There is no data available

Carcinogenicity There is no data available

Specific Target Organ toxicity (single exposure) There is no data available

Specific Target Organ toxicity (repeated exposure) There is no data available

Aspiration Hazard There is no data available

Information on likely routes of exposure Dermal contact. Eye Contact. Inhalation. Ingestion

Potential Acute health effects

Eye Contact No known significant effects or critical hazards

Inhalation No known significant effects or critical hazards

Skin Contact No known significant effects or critical hazards

Ingestion No known significant effects or critical hazards

Symptoms related to the physical, chemical and toxicological characteristics

Eye Contact No known significant effects or critical hazards

Inhalation No known significant effects or critical hazards

Skin Contact No known significant effects or critical hazards

Ingestion No known significant effects or critical hazards

Delayed and immediate effects and also chronic effects from short and long term exposures – Short Term

Potential & Immediate No known significant effects or critical hazards

Potential delayed No known significant effects or critical hazards

Safety Data Sheet

X-Press It Stencil Sheet

Delayed and immediate effects and also chronic effects from short and long term exposures – Long Term

Potential & Immediate No known significant effects or critical hazards
Potential delayed No known significant effects or critical hazards

Potential Chronic health effects

General No known significant effects or critical hazards
Carcinogenicity No known significant effects or critical hazards
Mutagenicity No known significant effects or critical hazards
Teratogenicity No known significant effects or critical hazards
Developmental effects No known significant effects or critical hazards
Fertility effects No known significant effects or critical hazards

Numerical measures of Toxicity

Acute toxicity estimates No known significant effects or critical hazards

Section 12 - Ecological information

Toxicity There is no data available
Persistence and degradability There is no data available.
Bio accumulative Potential There is no data available
Mobility in soil Soil/water partition coefficient (KOC): Not available.
Other adverse effects: No known significant effects or critical hazards

Section 13 – Disposal Considerations

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Since empty containers retain product residue, follow label warnings even after container is emptied.

Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Observe all labels precautions until container is cleaned, reconditioned or destroyed. Refer to all federal, state and local regulations prior to disposal of container and unused contents by reuse, recycle or disposal.

Section 14 - Transport information

ADG Not regulated for transport

Classification for SEA transport (IMO-IMDG): Not regulated for transport

Transport in bulk according to Annex I or II of Consult IMO regulations before transporting ocean bulk MARPOL 73/78 and the IBC or IGC Code No information available

IATA Not Regulated

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations. Additional transportation system information can be obtained through an authorized sales or customer service

representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

Section 15 - Regulatory information

Safety, health and environmental regulations/legislation specific for substance or mixture

Nation Regulations

Australia Not classified as dangerous goods in accordance with the Australian Code for Transport of Dangerous Goods by Road Rail (ADG). Not classified as a hazardous substance in accordance with the criteria of Safe Work Australia-Globally Harmonised System (GHS)

See section 8 national exposure control parameters

Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP)

Classified as a scheduled poison according to the standard from the Uniform Scheduling of Medicines and Poisons (SUSMP)

Prepared by X-Press Graph-X Pty Ltd

Key to abbreviations

Legend Section 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

TWA = Time Weighted average STEL STEL (Short Term Exposure Limit)

Ceiling = Maximum Limit Value * Skin designation

C = Carcinogen

ATE = Acute Toxicity Estimate

BCF = Bio concentration Factor

GHS = Globally Harmonized System of Classification and Labelling of Chemicals

IATA = International Air Transport Association

IBC = Intermediate Bulk Container

IMDG = International Maritime Dangerous Goods

LogPow = logarithm of the octanol/water partition coefficient

MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978.

("Marpol" = marine pollution)

UN = United Nations
